WMOS showcases the talents of over 70 artists from Medford and surrounding communities. Come see us, but also listen, taste, and take part. Hear local writers and musicians who will be performing throughout the weekend. Delight in a gourmet food tasting. Try your hand at pottery. There is plenty of free street parking to get you here. Then jump out of your car and take the time to do what we rarely do these days: walk through our neighborhood, bump into your old friends and make new ones, slooow down for an afternoon... See why we have been called the friendliest and coolest Open Studios around!
